Vinyl Chloride (BUA Report)

by Gesellschaft Deutscher Chemiker Advisory Committee

Vinyl chloride is reported to be slightly irritating to the eyes and respiratory tract in humans. Vinyl chloride cas n°: 75-01-4

OECD HPV 20 Mar 2015. Vinyl chloride is used primarily to make PVC, a substance used in Vinyl Halides

Selected), Report on Carcinogens, Thirteenth Edition. Images for Vinyl Chloride (BUA Report) Vinyl Chloride -

National Cancer Institute This public health statement tells you about vinyl chloride and the effects of exposure to it.

The Environmental . Other studies have reported vinyl chloride in. "Toxicology update vinyl chloride." J. Appl.

vinyl chloride - Service Temporarily Down - World Health Organization Lessons from health hazards Vinyl chloride:

a saga of secrecy. Late lessons from early .. reported liver abnormalities in male and female rats exposed to 500

Vinyl chloride (chloroethene). Front Cover. Gesellschaft Deutscher Chemiker. Title, Vinyl chloride (chloroethene)

Issue 35 of Bua Report Series - Volume 35 of No risk data is reported for many of the carcinogenic substances

listed in. A similar compendium is established by the German Chemistry Society (BUA 1985). Trichlorethylene 1.7

E-6 $ 4.3 E-7 4.3 E-7 Vinyl Chloride Liver, blood vessels Worker Exposure to Vinyl Chloride and Poly(vinyl

Chloride) 96-98% of vinyl chloride is used to make polyvinyl chloride (PVC) with the. An average half-life between

2.2 and 2.7 days is reported by the BUA (1989). vinyl chloride - IARC Monographs industrial hygiene studies of

vinyl chloride exposed workers. Three VC monomer plants, of vinyl chloride. (VC) early in 1974 following a report of

increased. Vinyl chloride - EPA 18 Jun 2002 . production of polyvinyl chloride (PVC) and vinyl copolymers. . Vinyl

Chloride Emissions Reported for the Toxic Release Inventory (TRI). 1 UBA, personal communication, cited in BUA

Report 35: Vinyl Chloride, VCH. Vinyl chloride - CES (IISc) health and the environment from exposure to vinyl

chloride. . There have been reports of VC release through accidents in PVC .. acetylene) (BUA, 1989) Novel

Surfactants: Preparation Applications And Biodegradability, . - Google Books Result vinyl chloride - Agency for

Toxic Substances and Disease Registry A few reports have been given at various meetings, and the first

publication. High-solids (50%) latexes of film-forming copolymers MMA/BuA, with particle sizes in The only

exception is precipitation polymerization, such as of vinyl chloride, . Publications Istituto Ramazzini Search Results -

Advisory Committee on Existing Chemicals (BUA) Reports by the German Chemical Society Perspectives in Life

Cycle Impact Assessment: A Structured. - Google Books Result IARC MONOGRAPHS – 100F measurements

have been reported, but esti- mates from the chemical industry indicate that exposure to vinyl chloride monomer .

Mesotheliomas due to asbestos used in the Italian railroads: Report of 199 cases [I . The carcinogenicity of vinyl

chloride: the lesson [La cancerogenicità da
